- The individuals on the voting body will review minutes from the previous SHAC meeting. (Sept. 20) Votes will be made at the end of the presentation.
- Identify Parents for Approval
 - Priscilla Arce
 - Abigail Teveni
 - Victoria Navarro

Bienestar Presentation

- Presenter:
 - David Saldana
- Presentation goes over Public Health Programming for students such as Health Education, Child Nutrition, Physical Education, Family Engagement, Counseling & social services. Other topics include obesity & diabetes being overrepresented in Mexican Americans & African Americans.
Chief of Staff – Olga Moucoulis: We received emails from individuals requesting to show this presentation again for more information & to be able to ask more questions.
- Questions:
 - Community member: How are the students in the unit being taught these components?
Mr. Salazar: All students should be taught this in the classroom & exposed to these components. It is typically taught in P.E. class or even in their science class.
Coach Benavidez: All students need 50% MVPA (moderate to vigorous physical activity)

Child Nutrition Director: It is a very engaging class. I have seen it being taught in the past few years here in Edgewood & the students love it & enjoy it.

- Community member: Have we had infractions with Community partners?

Mr. Salazar: Yes, SA Food Bank is one of them. We are working with more partners to get funds for programming. P.E., Health, Arts are all being cut at the State level.

- Community member: Are there educational programs like this that can be directed to the campus? We have been trying to recruit students and parents to go to the camps to raise awareness about diabetes. How can I as a community member get these students involved?

Mr. Saldana: There is not enough awareness. The State is making it very difficult to raise awareness when they're cutting programs like health class & PE. The best way to do this is to better communicate with school programs like Family Engagement & health literacy.

Nurse Alaniz: Contact me. Region 20 sends me information on summer camps. We have a recruiter from Region 20 that I can contact. Email me directly so I can get that information for you.

Chief of Staff: We can also share this information on our website for parents to read. Our newsletter is also available for them to view & get that information.

12:51 p.m. – End of Presentation

HB 3908 Tucker Law

- Presenters:
 - Nurse Jennifer Alaniz
 - Jorge Garcia
 - Officer Egelston
- Nurse Alaniz Introduction
 - Objective is to discuss
 - Fentanyl & Naloxone Legislative Updates
 - Current Drug Deaths trends in Texas
 - SB 629 Administration of Opioid Antagonists
- Questions:
 - Community member: What signs can community members look for when concerned of an overdose?

Nurse Alaniz: There is a public website that provides a one-hour long free training that can help someone identify if someone is suffering from an overdose. Morenarcnplease.com. This training will go over:

 - Opioid Training

- Risk Factor for overdose
- Duration of effect

1:14 PM – End of Presentation

History of Fentanyl

- Officer Egelston Introduction
 - What does Fentanyl look like?
 - Street Names
 - Symptoms of Fentanyl
 - Punishment for possession of Fentanyl
 - Treatment centers
