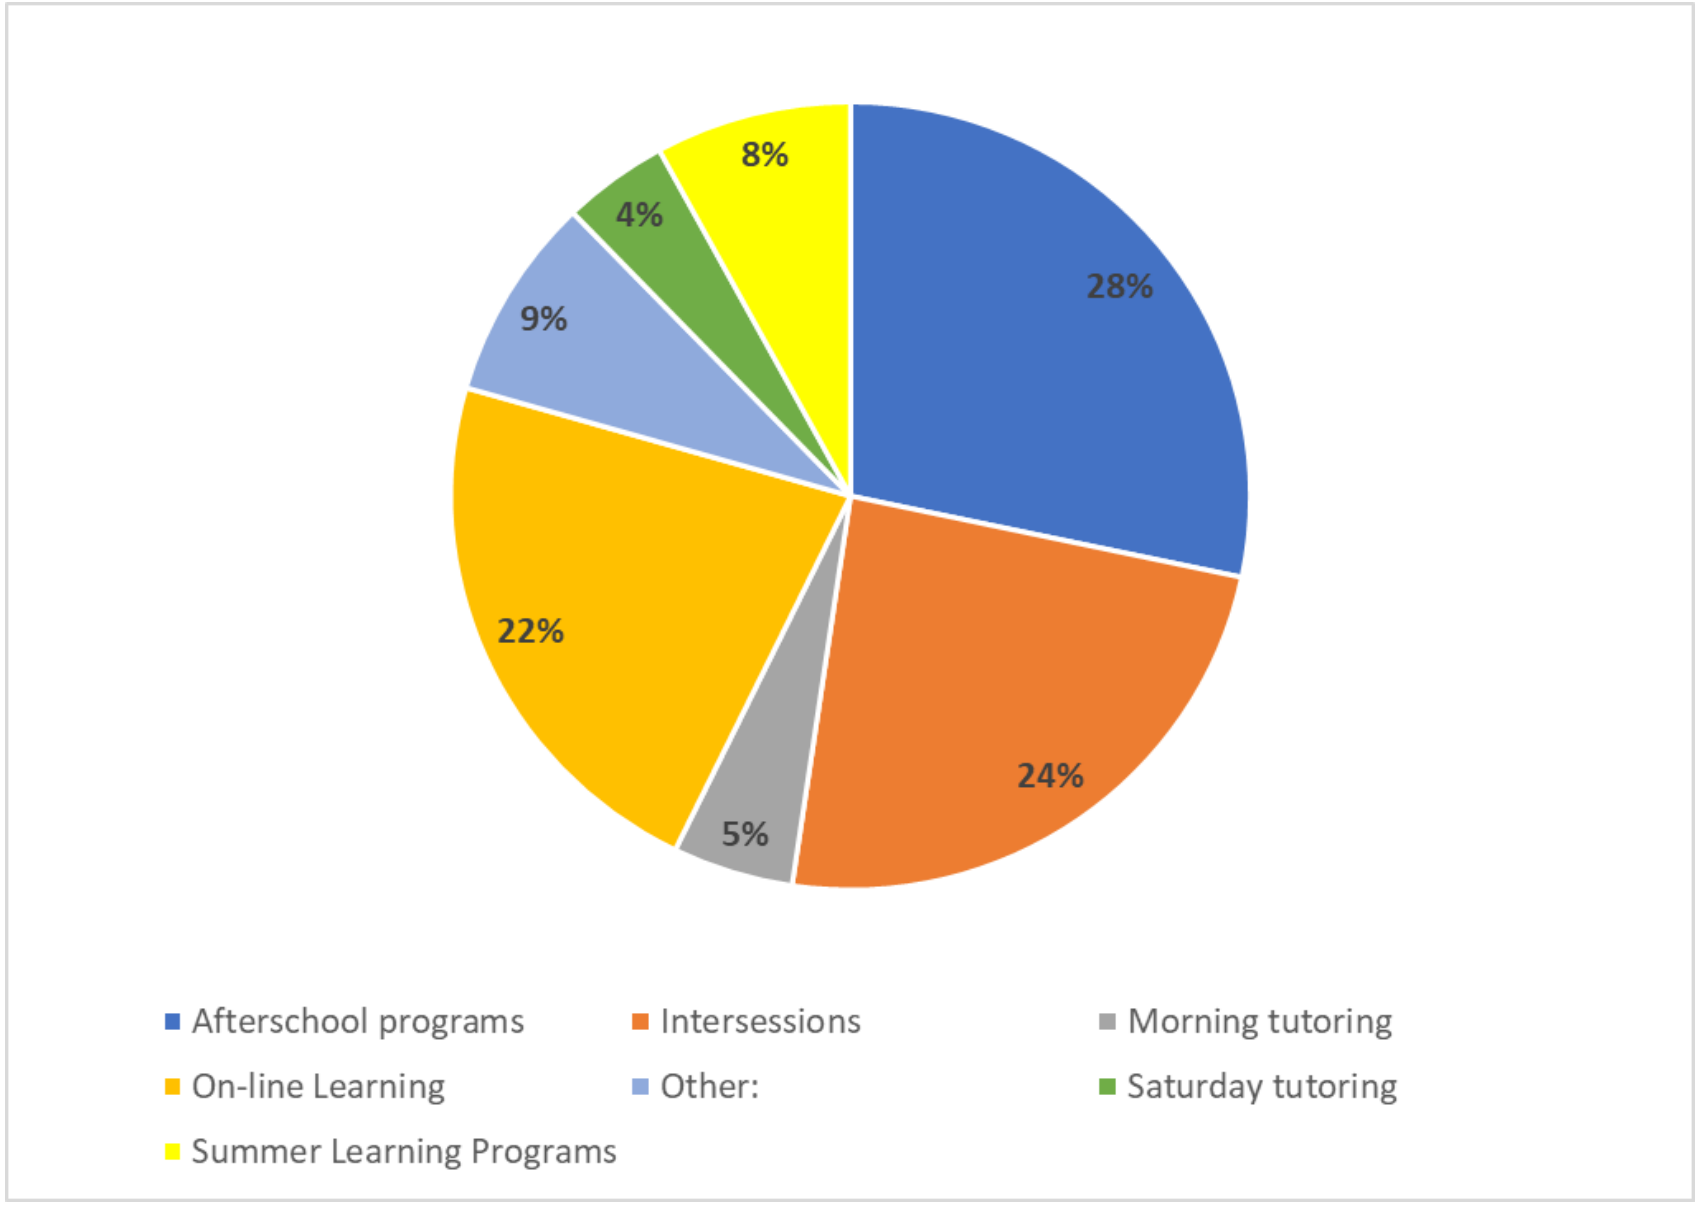
Which type of programs do you believe EISD should consider to accelerate student learning?



Which type of programs do you believe EISD should consider to accelerate student learning?
OTHER (9%): (COMMENTS: These are a few of the responses given.)

- ISS Rooms for socially and emotionally impaired students
- Remote learning when unable to be at school
- During the day small group intervention supports/pullouts
- Online learning. Explore possible resources as Digital Learning Playground
- Remote Learning to be reviewed and adjusted to meet needs in a timely response

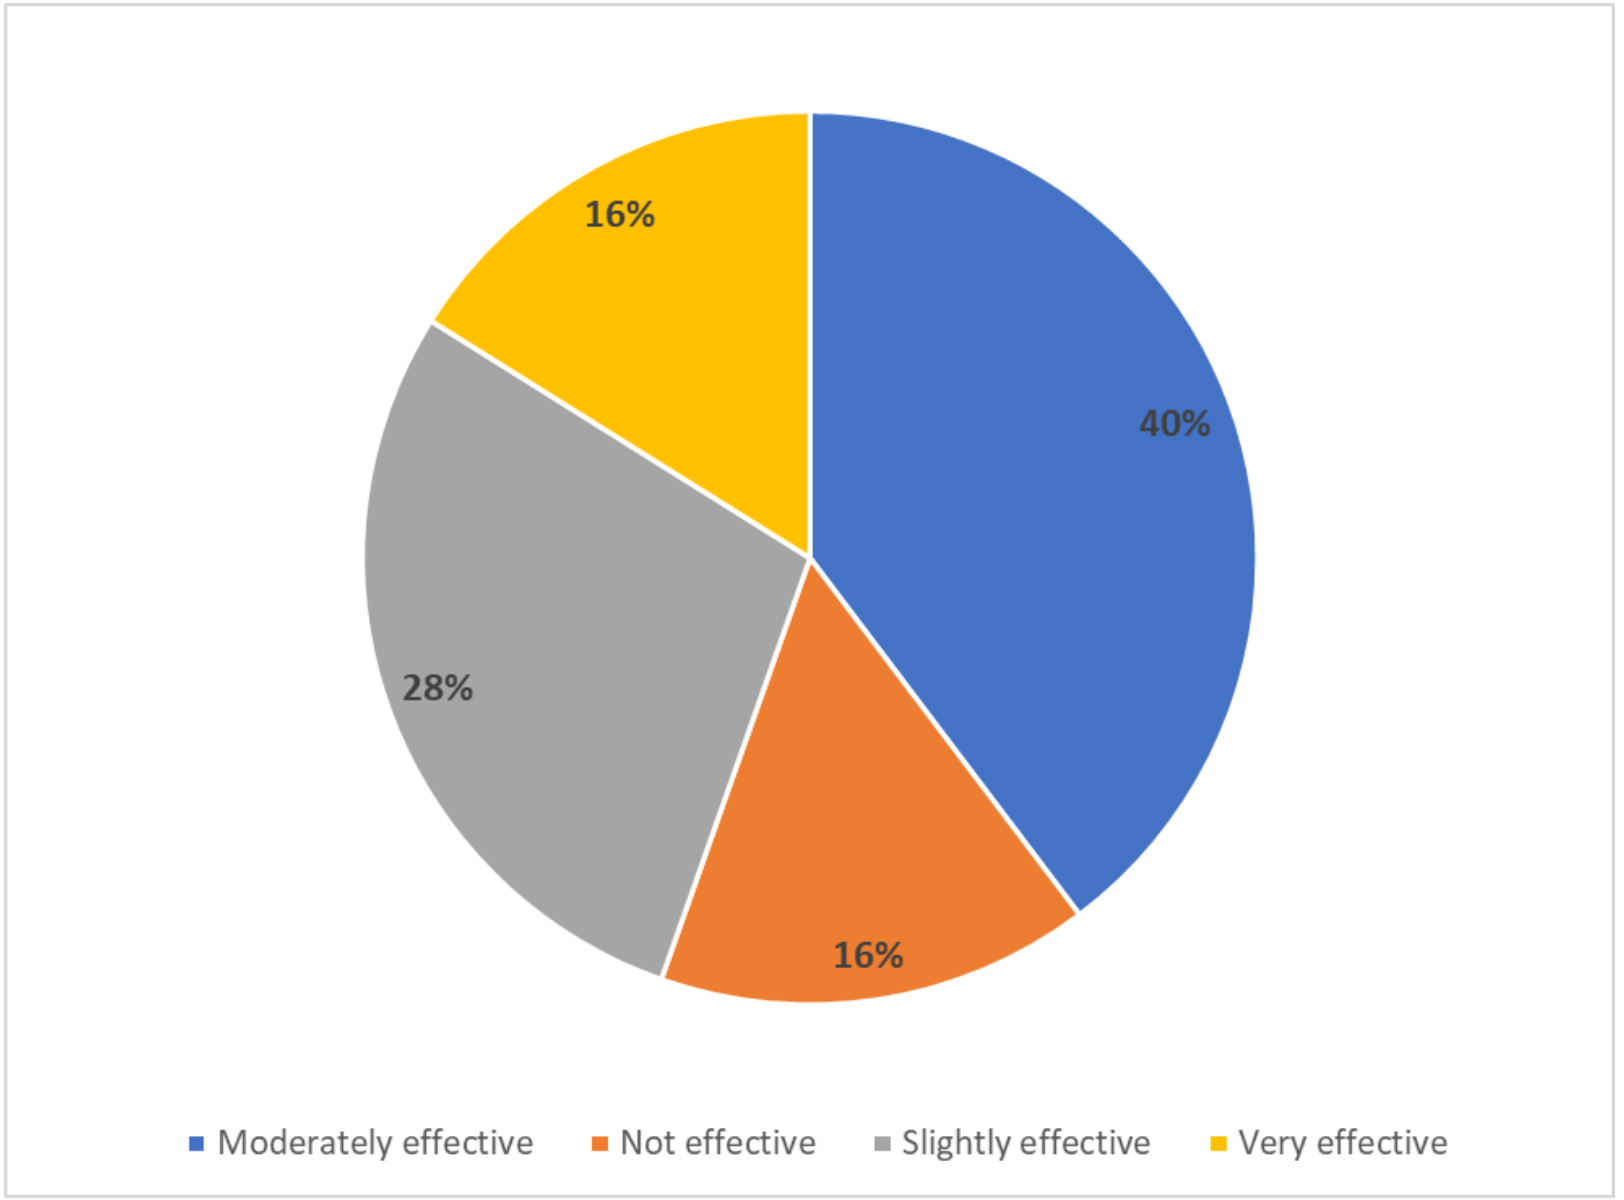
How would you rate EISD current response in providing mental health and social emotional support to students?



How would you rate EISD current response in providing mental health and social emotional support to students?
(COMMENTS: These are a few of the responses given.)

- A safe space for panic attacks, anxiety attacks, and depressive episodes. regular classrooms can be overwhelming
- Counselors that are provided for our students' emotional support are being assigned to other tasks
- I think that having counselors available to students at any time during the day would be helpful. Having students make an appointment is not giving them the immediate assistance that they need
- Teachers need better SEL lesson and Counselors should be held responsible for SEL through small groups or via online learning

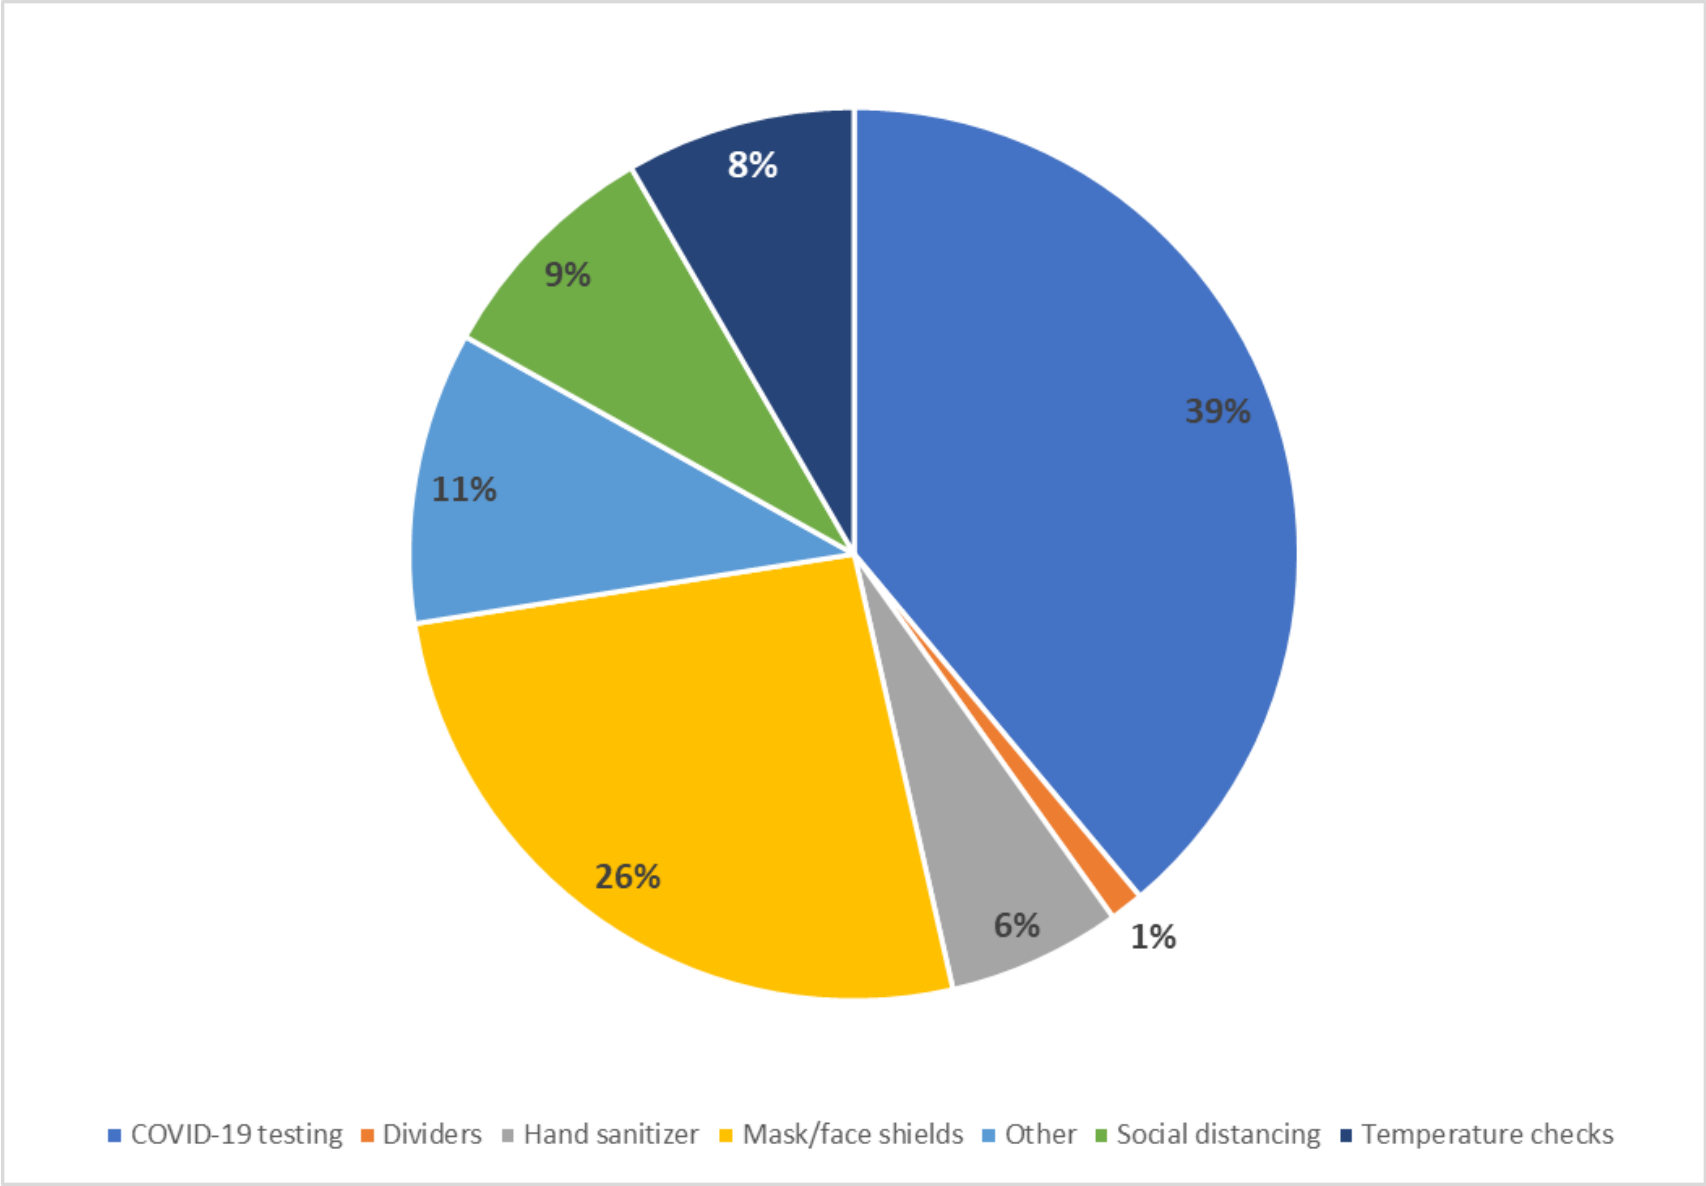
Which of the following would you feel help ensures our students and staff are safe at school from the coronavirus?



Which of the following would you feel help ensures our students and staff are safe at school from the coronavirus?
(COMMENTS: These are a few of the responses given.)

- Give us rapid testing so we don't have to wait days to get our results because it gives more of a chance to spread coronavirus
- I would love to be able to see extra staff wiping high touch places 3-5 times daily. I have not seen anyone but our own custodians doing extra work
- Making sure that parents understand that children need to wear in mask on campus
