Mission: Our Mission is that students, educators, families, and communities work together to develop the whole child academically, socially, emotionally, and physically.

Vision: To be an elite elementary campus that provides educational excellence while preparing responsible, tenacious, and productive citizens.

Our Belief: All children have the ability to learn. All students must receive an equal opportunity to achieve their best. All students deserve an environment that is conducive to learning. Learning is a life-long process for everyone. Learning is the responsibility of students, parents, community, and educators. School activities must enhance the learning process so that each child can learn. Decisions are made collaboratively, research-based and data driven.
